

Ben Levi

DevOps / Cloud Engineer

philepin@gmail.com · +972-50-6248878 · linkedin.com/in/ben-levi-442790240 · github.com/Ben-levi · ben-levi.github.io/Ben-levi

PROFESSIONAL SUMMARY

Entry-level DevOps / Cloud Engineer with hands-on experience in automation, containerization, orchestration, and cloud deployments. Passionate about AI, IoT, and continuous learning. Strong foundation in Electrical & Control Engineering, with a technical pivot to cloud-native technologies and infrastructure-as-code tools.

TECHNICAL SKILLS

Languages & tools	Kubernetes, Docker, Python, Jenkins, Git, AWS (EKS, EC2, S3, ELB), Terraform, Ansible, Grafana, Prometheus, MySQL
Technologies	CI/CD, GitHub Actions, Infrastructure as Code, Monitoring & Alerting, Flask, JavaScript, HTML5, PLCs, HART, Control Systems, CAD Tools

PROJECTS

Family Todo App — Personal project

Full-stack developer · task management web app deployed on AWS

- Built with Flask (Python), HTML5 and a MySQL database
- Dockerized the application and deployed it via Kubernetes (AWS EKS)
- Set up a CI/CD pipeline using Jenkins
- Enabled real-time monitoring with Prometheus and Grafana
- Configured ELB, S3 buckets and secure IAM roles

Online Portfolio — ben-levi.github.io/Ben-levi

Web developer · personal portfolio showcasing projects

- Designed and built a responsive website using HTML5, CSS and JavaScript
- Hosted on GitHub Pages with continuous updates
- Highlights DevOps and AI projects with direct links and visuals

WORK EXPERIENCE

Control & Instrumentation Engineer — 2024 – 2025

- Developed and maintained signal and loop systems
- Designed control schematics using CAD tools
- Integrated advanced instrumentation systems

Tech used: sensors, automation systems, design tools

Control & Automation Practical Engineer — 2013 – 2024

- Installed, calibrated and maintained industrial sensors
- Troubleshot control systems and performed diagnostics
- Supported process automation improvements

Tech used: PLCs, HART protocol

EDUCATION & TRAINING

B.Sc. Electrical Engineering — Graduated 2023

Sami Shamoon College of Engineering · Major in Communication Systems & Cybersecurity · GPA 84/100

DevOps Bootcamp — TESI

INTERESTS

Self-learning: advanced neural networks, IoT systems · Areas of interest: AI, IoT, robotics, tech innovation · Hobbies: soccer, MMA, family
